

Protect your car and yourself ... from unfair taxation

We spent the last several years fighting this unfair tax – also known as mixed-use vehicle taxation – that targets small-business, independent contractors. In the 80th session, we passed legislation that will end this issue once and for all. However, because the new law will give us constitutional protection from this unfair tax, we have one final hurdle: statewide ratification by voters. This is the final, do-or-die step to ensure that hard-working Texans won't have to pay \$600 or more in additional taxes per year. The stakes are high. If Prop 6 fails, it will be a signal for central appraisal districts to target all independent contractors who drive a car.

Spread the word. Tell everyone you know to go to the polls and *vote for* Proposition 6 on the Nov. 6, 2007 statewide ballot.

Who knows? Even if this tax doesn't directly affect you today, it could tomorrow – if Prop 6 doesn't pass.
