Selling Price per Square Foot

The Selling Price per Square Foot is a great indicator for the direction of Property values. Since Median Sales Price and Average Sales price can be impacted by the 'mix' of high or low end Properties in the market, the selling price per square foot is a more normalized indicator on the direction of Property values. The December 2011 Selling Price per Square Foot of \$192 was down 4.3% from \$200 last month and up 7.3% from 178 in December of last year.

Selling Price vs Original Listing Price

The Selling Price vs Original Listing Price reveals the average amount that Sellers are agreeing to come down from their original list price. The lower the ratio is below 100% the more of a Buyer's market exists, a ratio at or above 100% indicates more of a Seller's market. The December 2011 Selling Price vs Original List Price of 91.0% was down from 100.0% last month and down from 93.2% in December of last year.
